

Virtual Disaster Recovery

Zimcom's Virtual Disaster Recovery service allows customers to replicate their data and workloads to Zimcom's secure infrastructure and quickly failover in the event of a primary system failure.

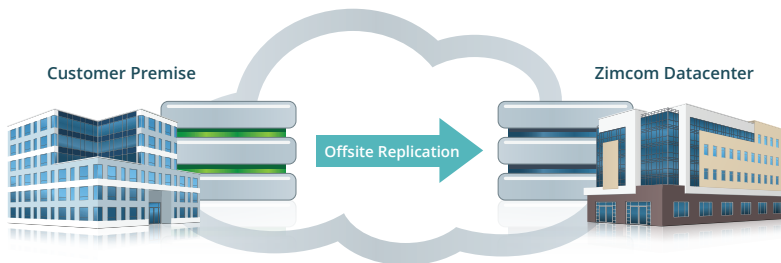

With Zimcom VDR, you get a "DR in a box" solution that provides fast and reliable enterprise-class disaster recovery for your organization's critical IT systems:

- ✓ 5-MINUTE Fail-over to the cloud!
- ✓ Quick & Easy Setup w/Remote Deployment in 1-Hour
- ✓ Rapid recovery for Windows & Linux workloads
- ✓ Works on Bare Metal, Hyper-V, VMWare, KVM & more
- ✓ Seamlessly integrated with Zimcom's cloud platform

Fast, Reliable and Compliant

Already running your production workloads in the cloud? Add out-of-region DR/Failover to another Zimcom data center for fast Recovery Time Objectives (RTO) and Recovery Point Objectives (RPO) to help achieve industry compliance requirements.
